Add DISMOUNT CLUSTER qualifier.

V03-003 HH0003 Hai Huang 16-Feb-1983
Add DISMOUNT ABORT qualifier.

V03-002 MCN0135 Maria del C. Nasr 31-Oct-1983
Eliminate prefix clause, since it is not needed with
the new CLI interface.

V03-001 PCA1008 Paul C. Anagnostopoulos 10 Feb 1983
Remove the MCR DMO verb name, because the DMO command has
become a separate CLD.
Add a comment about the equivalent CLD for MCR.

! Don't forget the DMO.CLD file. It contains an equivalent set of
! definitions for MCR which must also be enhanced.

```
define verb dismount
  image dismount
  parameter p1,prompt='Device',value(required,type=$device),label=device
  qualifier unload,default
  qualifier unit
  qualifier abort
  qualifier cluster
